Pure Data + Raspberry Pi: The Adventure Continues

Event Details

The Raspberry Pi is an inexpensive single-board computer that runs Linux and connects to your television. It also runs Pure Data quite nicely and is great for a portable or embedded audio device.

Miller Puckette, creator of Pure Data (Pd) will be showing the latest tips and tricks for using Pure Data on the Raspberry Pi.

Bring your laptop and Raspberry Pi to play along.

Raspberry Pi kits will be available as an optional ticket. The kit will include:

- Raspberry Pi Model B
- SD card
- USB wall charger
- USB cable (for power)
- Ethernet cable

Discounts on the workshop for CRASH Space members available - see member list for details.

DIY Live Sampling Microphone Build & Slice//Jockey

Event Details

Katja Vetter (http://www.katjaas.nl/home/home.html) will show how to build a quality unidiretional DIY microphone suitable for live recording, and how to use it with Slice//Jockey, a live sampling Pure Data patch.

Some simple soldering will be involved, but no experience is necessary - we'll teach you what you need to know.

Bring a laptop, ideally with Pd-extended installed (http://puredata.info/). We will provide the matierals to build your own microphone and needed and software.

Discounts for CRASH Space members - see member list for details.

(Note this runs concurrently with the Pure Data + Raspberry Pi: The Adventure Continues workshop.)

Patching Circle With Miller Puckette

Sunday, November 17, 2013 from 12:00 PM to 8:00 PM (PST)
Culver City, CA

FREE

RSVP

or, register with email

Registration Ends: November 17, 2013 11:00 AM

Event Details

A patching circle is an informal gathering of anyone who is interested in patching languages (Pure Data, Max/MSP/Jitter, etc.). Beginners and experienced patchers are welcome. Open to everyone – work on personal or professional projects, school work, or just patch quietly to yourself, in a room full of other people patching patches and helping other people patch.

We will have some special events. Miller Puckette will show what's new with Pd 0.45. And our Pd Weekend visitors will demo their patches and projects.
